

# the magical box in my body

by Julian Sparber

# about me

Age 24

Computer Science student

Long-time Free Software enthusiast

Zombie

Cyborg

i basically died.  
twice.

so now i'm a cyborg

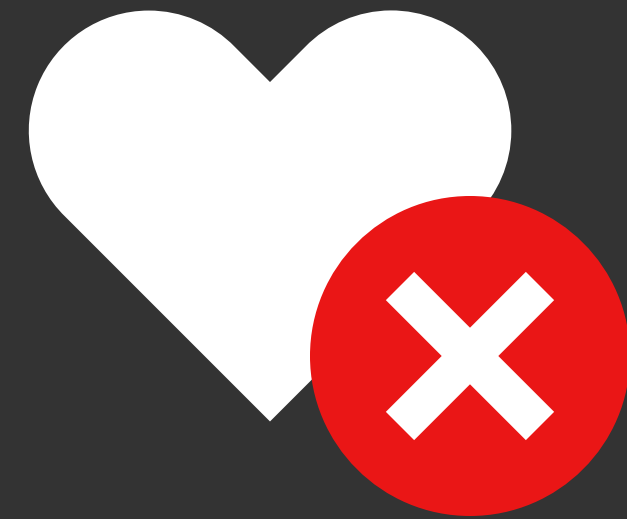

proprietary software.  
inside my body.

Parabola GNU/Linux

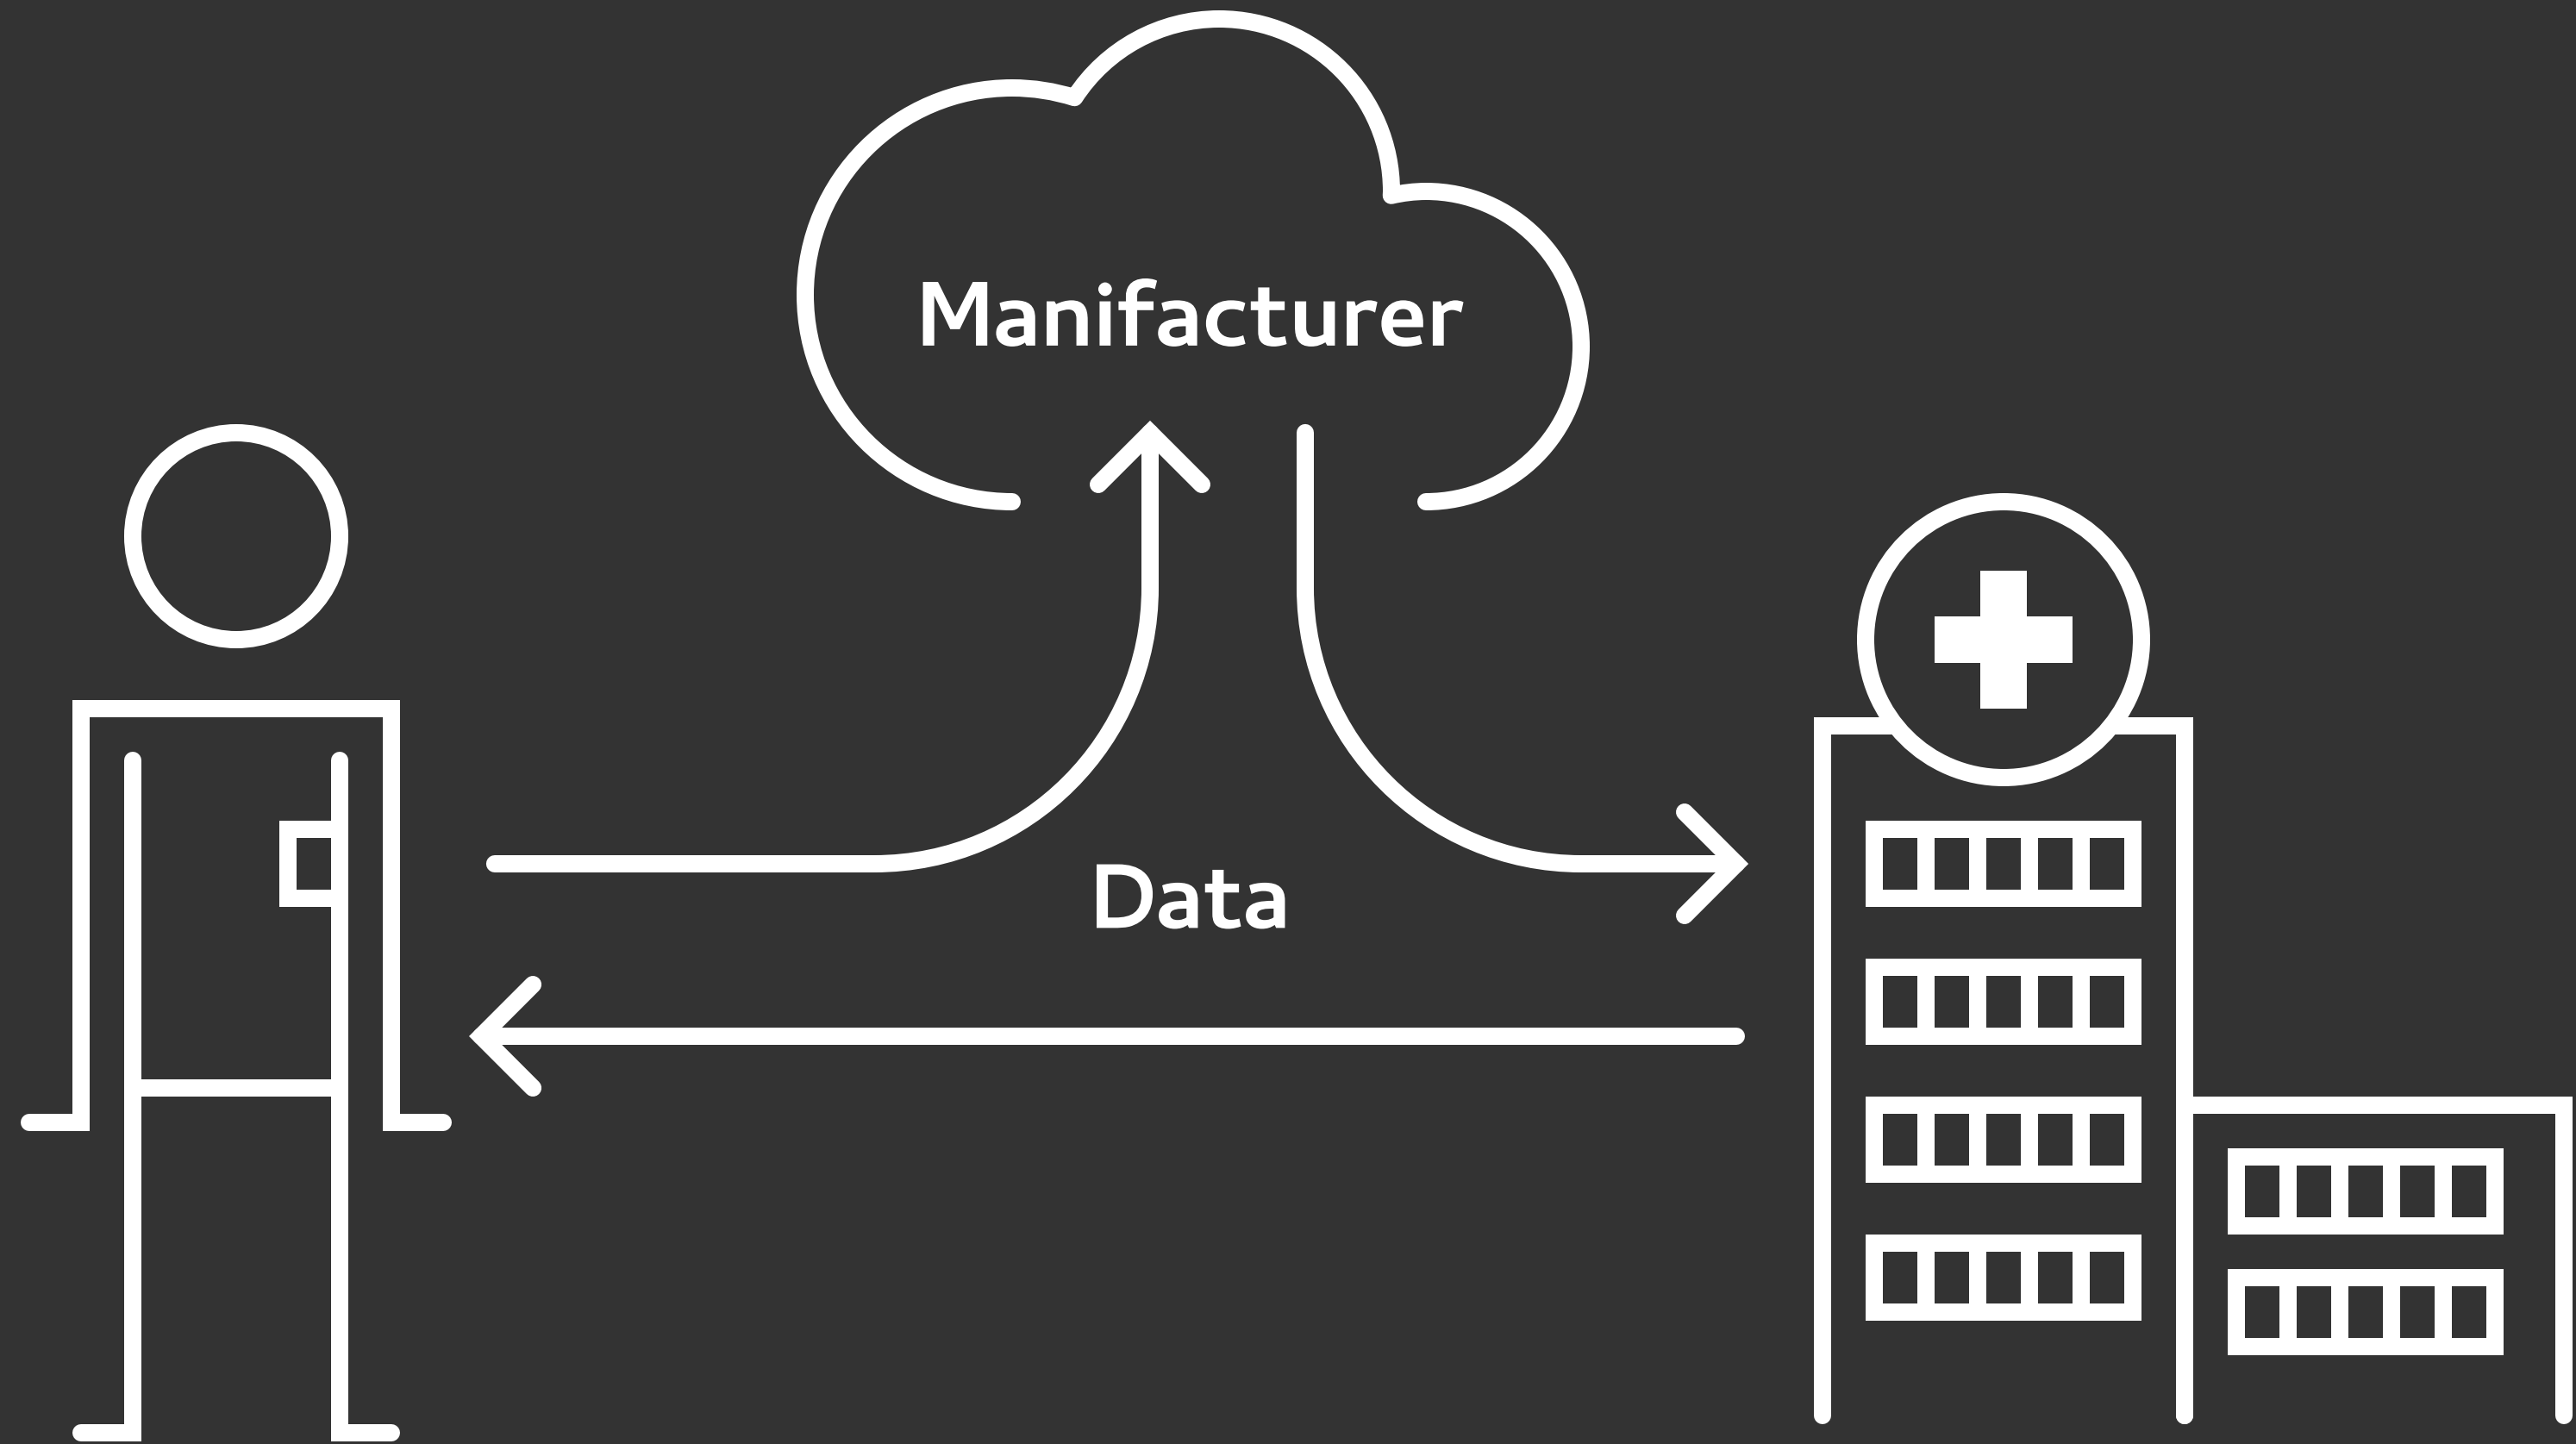

LineageOS  
(no Google Apps)

Proprietary

privacy?????

what about *safety* &  
*security*...

*security by obscurity*

all software has bugs.

free software has fewer.

*you don't care... yet.*

software freedom can  
literally save your life

# thanks
